

REDUCED-RATE PARKING WITH PREPAID CARDS

Prepaid cards offer the possibility of parking at Vienna Airport for **10 per cent less** than the normal tariff. The current normal tariffs can be seen at www.viennaairport.com/parking.

Prepaid cards have the word “Nachsteckkarte” and an **amount** printed on them. They can be used in **multi-storey car parks 3 and 4, car park C, short-term car park K3 and in the departure zone**. The parking fee will be deducted from the value on the card. The amount remaining can be seen by introducing the card into a ticket payment machine at the airport. Prepaid cards can be combined, and excess time can also be paid by credit card, debit card or cash. Please note that they are equivalent to cash and cannot be cancelled or replaced free of charge in the case of loss.

Two categories of cards are available: **€ 50 cards for € 45** and **€ 100 cards for € 90**. They can be obtained using the order form for a minimum of 10 cards per category or directly at the cash machines. Payment there may be made by cash, debit or credit card.

HOW TO USE THE PREPAID CARD

As you enter the car park **take a ticket** by pressing the ticket button and park your vehicle. Before you leave, you can **pay at the machine, the ticket desk in multi-storey car park 4 or at the exit itself**.

Introduce the ticket and the parking fee will be displayed. Insert the **prepaid card** and the amount will be reduced accordingly. Remove the prepaid card and ticket, which is now coded to open the barrier for a short time (normally 20 minutes, longer for car parks further away from the terminals).
